

PRAIRIE ROCK ALE

Brewed with premium two-row malt and just a hint of caramel for body, this golden ale is crisp and refreshing. Cascade and Liberty hops provide balance and a clean finish. Our flagship brew and a great introduction to the world of craft beer.

ROCK'N RED ALE

Two-row pale, light and dark caramel, and just a touch of roasted barley give our amber ale a well-rounded malt body. Cascade and Willamette hops produce the fine balance that makes this beer a great accompaniment to anything on the menu.

PRAIRIE LIGHT

A very mild American-style beer. Two-row malt and a special brewing process keep this beer light in body and in calories. Liberty hops give flavor, but don't overpower. Our lightest offering and a sure hit for fans of American beers.

INDIA PALE ALE

During the British occupation of India, England maintained morale with a special ale. To survive the long journey, these beers were brewed strong and heavily hopped. Our example was brewed with five malts and five varieties of hops for a beer worthy of celebration.

Where Great Beer Is Just The Beginning!

You have before you the pride and joy of the Prairie Rock Brewing Company. We're proud that all of the beer we offer is produced from start to finish right here in our on-site brewery: Elgin's first legal brewery since prohibition. All of our ales and lagers are crafted using time-honored methods and honest quality ingredients. By choosing Prairie Rock you can be sure that you are enjoying your beer at its freshest best. Your beer flows straight from our tanks to your glass: never pasteurized, never shipped from here to there.

We offer samplers as a way to familiarize yourself with Prairie Rock beer and with the varying styles we have to offer. We often tell people "If you think you don't like beer, that's only because you haven't found the right one yet." As you go through your sampler we hope that you find the right one or ones, and that your beer adds to your enjoyment. Have fun and enjoy the beer, Cheers!

VANILLA CREME ALE

A Prairie Rock exclusive! Two-row pale and caramel malts with a touch of vanilla combine to give this unique beer the flavor and aroma of an old-fashioned creme soda. A perfect accompaniment to any or all of our desserts.

ACE HARD CIDER

Prairie Rock is proud to offer a crisp, refreshing cider. Fermented from the fresh juice of either apples, pears, or berries (ask your server which) cider is a wonderful taste treat!
